Priority number(s):

Abstract of JP2002264023

PROBLEM TO BE SOLVED: To provide a super-abrasive wheel having a large adhesive strength of a base metal made of hard metal with a super-abrasive layer for appropriately using for heavy duty grinding.

SOLUTION: In this super-abrasive wheel having tungsten carbide base hard metal as base metal, concentration of cobalt and/or nickel combined metal phase in the metal is 25-35 mass%.
